

Arch Advanced PAL & Arch PAL

Advanced technology at a traditional price

Provide your patients with today's advanced progressive technology at a traditional price!

Arch and Arch Advanced progressives feature patented back-surface, free-form technology made locally. Improved optics to provide your patients high definition vision.

Four fitting heights allow patients more flexibility with frame choices.

Arch Advanced PAL

- 100% back surface technology
- Balanced and unified viewing zones
- Up to 40% wider clear fields of view with fully customized Rx for each patient

Arch PAL

- 100% back surface technology
- General purpose progressive, enhanced with digital technology
